

## A Complete Portfolio of Services to Help You Every Step of the Way

Developing new OEM systems can seem like an impossible journey filled with wrong turns, roadblocks and risks. Yet, the future of your company is riding on these decisions. MicroE Systems' Odyssey OEM Lifecycle Support program will help insure

your success. It is a comprehensive set of support tools and services that complement our state-of-the-art motion control systems. It spans the breadth of a product lifecycle, from the supplier selection process, through design, manufacturing and technical support.

### The Concept Phase – Form, Fit, Function and Lifecycle Support

MicroE's Rapid Customer Response (RCR) group is a team of experienced application engineers with in-depth knowledge of motion-control systems. You will benefit from their expertise throughout your product's lifecycle. The process starts with consultation and technical assistance during the initial concept phase. Substantive discussions on technology, form, fit and function will address your motion-control requirements. Once agreement on the concept phase has been achieved, the Odyssey Support program progresses to the Design Phase.
